Description

Detcon Model AV1-N4X audio visual alarm stations are designed for installation and use in light industrial environments. The alarm station consists of a warning light and siren. The warning light can consist of any dome color such as amber, blue, clear, green, or red. The audible alarm is capable of producing coded blasts or sustained tones. Model AV1-N4X alarm assemblies are specifically designed for non-hazardous general purpose locations or environments where a very bright visual and high decibel alarm signal is required. The high-intensity strobe light provides 60-80 flashes per minute. The siren produces a noise level of 99dba @ 10 feet. The light is UL listed and CSA Certified and meets Type 4X watertight, dust-tight requirements. The siren is UL listed and CSA Certified.

Model AV1-N4X alarm components are pre-assembled and packaged in a NEMA 4X raintight enclosure. Overall dimensions are 13.5"H x 7.3"W x 6.5"D.
